Strem Chemicals Award for Pure or Applied Inorganic Chemistry

This award will be presented to a Canadian citizen or landed immigrant who has made an outstanding contribution to inorganic chemistry, demonstrating exceptional promise, while working in Canada. Eligible candidates must have held their first professional appointment as an independent researcher in academia, government, or industry for ten years* or less at the time of nomination. Awardees must be members of the Inorganic Division working in Canada at the time of the award.

*excluding time spent on parental leave

Terms of Reference

Deadline: July 2 of every year

Sponsor: [Strem Chemicals, Inc.](#)

Award: A framed scroll, an award lecture to be given in an inorganic chemistry symposium at the annual CSC conference, and a lecture tour to one or more Canadian universities that are not in major centers, and whose students normally do not travel to CSC meetings. Up to \$1,000 in major travel costs for this tour will be reimbursed on application to the DIC Treasurer; local costs (taxi, accommodation and meals) will be expected to be covered by the host institution(s). Membership in the Institute is not a prerequisite for this award.

Nominations must include:

- **Citation** (250 word maximum) statement of why the candidate should receive the award. This is the key document in the nomination and this information should be relevant to the achievements for which the award is being offered.
- **Biographical Sketch** (maximum one page) This provides background information on the nominee and summarizes past accomplishments. This is a summary of information obtained from a C.V.
- **Curriculum Vitae** (maximum nine pages).
- **Supporting Letters** (3 to 5) At least two letters must be from outside the nominee's organization.

Membership in the Institute is not a prerequisite for this award.

All nominations will remain in force for three years. Nominators are responsible for keeping the record of the nominee up to date and complete.

Selection Committee:

- CSC Director of Awards as non-voting Chair
- Chair of the Inorganic Chemistry Division
- Past two winners of the Strem Chemicals Award for Pure or Applied Inorganic Chemistry

All nominations will remain in force for three years, subject to the limit of the eligibility window stated above.

Nominators are responsible for keeping the record of the nominee up to date and complete. The award shall be presented annually unless the Committee considers that no suitable candidate has been nominated.

List of Recipients

Date	Award Winner	Award Lecture
2017	Dwight Seferos	Organo-Tellurium Materials and Reactive Molecules
2016	Curtis P. Berlinguette	Do Molecules Really Help Us Understand Heterogeneous Catalysts?
2015	Muralee Murugesu	Lanthanides the New Enables
2014	Paul Ragona	Fun with Main Group Chemistry: From Fundamental Discoveries to Interesting Applications
