

Canadian Society for Chemical Engineering | *For Our Future*

2014 CSChE Chemical Engineering Local Section Scholarship Winner

Tancred Thomas
Laurentian University

Tancred Thomas is 21 years old and will be graduating with a chemical engineering degree in 2015. He has had great experiences working at Husky Energy in Calgary over the last two years in student positions. He urges all new students to apply for student positions and to get involved with extra-curricular activities. He also encourages them to play Starcraft II; He mentions that RTS games provide you with skills including goal-making, multi-tasking, making fast and smart decisions and crafting your own identity, which prepares you for life. He would like to extend his gratitude to his professors at Laurentian University and also to the Canadian Society for Chemical Engineering for choosing him as a recipient of this prestigious award. He would also like to thank his parents, brother, Marianna Uceda, Dayna Corelli, Nishma Appanna, Kassie Pinard, Joel Grant, Alanna Hedden and Lauren Woods for bringing out the best in him.
