

Chemical Institute of Canada | **For Our Future**

## Hawkesbury Local Section

Members and guests are cordially invited to join us for our first meeting of 2015, on Tuesday, January 27, which will include dinner at Restaurant Carole, followed by a talk by Dr. Donaldson MacLeod on the effect of climate change on road construction.

Dr. Donaldson MacLeod is a civil engineer with over 40 years experience in the design, construction and management of highway infrastructure. He has worked in some form or other on most northern highways in Canada. He is a licensed professional engineer in Quebec, Ontario and Saskatchewan, and is a member of the Transportation Association of Canada and the American Transportation Research Board.

His talk will discuss the effects of climate change on highway infrastructure, and will look at changes needed in pavement design, permafrost areas, winter roads, drainage, and “Acts of God”.

Date: Tuesday, January 27, 2015

Place: Restaurant Carole, 292 Main Street East, Hawkesbury (second floor)

Time: 6:00 pm Dinner. Restaurant Carole will offer its regular menu selection

7:30 pm Lecture by Dr. Donaldson MacLeod
