CSA Z767 ROLLOUT UPDATE
TEAM GOALS

- Rollout of CSA Z767 in order to engage as many organizations as possible with the goal of obtaining standard adoption by industry and regulators
- Long term goal is to gain enough traction in industry and provide comprehensive info session such that Z767 can be auditable
- Z767 was issued in early 2017:
  - We want to capitalize on this opportunity to maintain momentum in industry outreach and gain visibility
WHO ARE WE TARGETING?

Three key audiences:
1. Regulators
2. Organizations already engaged in PSM activities
3. Organizations with little to no PSM knowledge (possible OHS knowledge)
TEAM MEMBERS

- Jyoti Patel
- Roland Andersson
- Graeme Norval
- Gerry Phillips
- Suzanne Mathews
- Amanda Sistilli
- Guy Brouillard
- Adrian Pierorazio
- Francois Roche
- Parnian Jadidian
- Supraja Sridharan
Regulator and Chemical Association Presentations have been underway
Guy and Francois completed a presentation in Oct. 2017 with CRAIM, CIAC and CSA members present in Quebec
  - Slide deck is appropriate for audience 2
Breakout sessions and preliminary content developed for audience 3 for a 1 day workshop
Discussions with Tara Leitan (CSA) regarding Z767 copyright management
Until recently, there has been some disjointed communication and facetime between seeking audiences and preparing content
  - Team has been meeting throughout this week in order to regain traction and determine a path forward
Target audience 2 (organizations already on board with PSM) initially
  - Content is in French (target of mid-November for translation)
  - Easy to garner an audience from this group
  - Presentation/workshop can be organized as 1-2 hour sessions

Creation of 2 sub-committees (Content Development and Outreach Teams)

Content Development Team will finalize content (targeting audience 2) by Dec. 2017

Outreach team will create a plan for potential 2018 presentations by Dec. 2017
COMMITTEE STRUCTURE

- **Overall Coordinator**: Jyoti
- **Content Development**
  - Amanda
  - Gerry
  - Pamian
  - Guy
  - Supraja
- **Outreach Team**
  - Graeme
  - Adrian
  - Suzanne
  - Francois
**OPPORTUNITIES**

- Presenters:
  - We need a deck of presenters (if you are interested, please let us know!)
  - Industry specific support is key
- Keep CSA in the loop of our progress and what we want to achieve
  - CSA Conference in June in Edmonton would be a natural fit for a 2 hour session
- Can we use these presentations in order to boost our brand as a Process Safety Group in Canada?
