Our Charity: Chemical Education Fund

The CIC's <u>Chemical Education Fund (CEF)</u> is a registered charity that promotes education in the fields of chemical sciences, chemical engineering, chemical technology, and related disciplines. CEF's goal is to inspire the next generation of chemical science professionals and engage the public by developing educational materials and through outreach activities, such as seminars and conferences.

Canadian Chemistry Brings the World Together

For the International Year of the Periodic Table, University of Waterloo and *Chem 13 News* magazine launched the 'Timeline of Elements' project, where students from 118 schools in 28 countries created hexagonal artwork based on the discovery story of each element.

2019 CIC Award for Chemsitry Education

Professor **W. Stephen McNeil** is the winner of the 2019 CIC Award for Chemistry Education for his outstanding contribution to post-secondary chemistry education at the University of British Columbia Okanagan.

2019 Lionel High School Chemistry Scholarship

The Lionel High School Chemistry Scholarship is a scholarship to assist high school students in financial need in pursuing post-secondary studies in the chemical sciences up to four years.
