

# CIC VIRTUAL

As we all moved to a virtual world, the CIC also followed suit and launched career and technical webinar series under [CIC VIRTUAL](#). We also hosted our virtual Canadian Chemical Engineering Conference. Being in a virtual space has allowed us to provide a more connected and accessible experience for our members.

## CIC VIRTUAL

**CIC TALKS** hosted **15 exclusive webinars** from leaders of our community from a diverse range of fields, including two presentations from CIC/CSC award winners.

**THE SEMINAR SERIES** hosted over **30 seminars** and welcomed nearly **50 speakers** from Canada and around the world through **4 subject divisions**.

## Canadian Chemical Engineering Conference 2020

The **Canadian Society for Chemical Engineering** hosted CIC's first virtual conference, which welcomed **650+ attendees** from nearly **20 countries** across the globe.

With speakers from academia, industry, and government, we explored the theme of "Chemical Engineering for a Sustainable Future".

**5**  
**PLENARY**  
**SESSIONS**

**6**  
**TECHNICAL**  
**TRACKS**

**25 symposia**

**60+ invited talks**

**8 award lectures**

**400+ technical presentations**

**150+ hours of technical presentations**

### Continuing the critical conversations...

In partnership with the **National Research Council of Canada**, CCEC 2020 featured a plenary panel, two symposia, and a workshop that spotlighted the critical role of equity, diversity, and inclusion (EDI) as a foundation for innovation in Canada's chemical sciences sector and the immense societal and economic benefits that it brings.
