

THE CANADIAN JOURNAL OF CHEMICAL ENGINEERING

JULY 2021

VOLUME 99 NUMBER 7

Issue Highlights	1442	Hydrodynamics of a gas-driven inverse liquid-solid fluidized bed.	1535
		<i>Jiaqi Huang and Jesse Zhu</i>	
Special Issue in Honour of Professor Jamal Chaouki		Ferrite production with fluidized bed calcination	1546
Special issue in honour of Professor Jamal Chaouki	1443	<i>Yoshiro Adachi and Masayuki Horio</i>	
<i>Rahmat Sotudeh-Gharebagh and Xiaotao Bi</i>		Local hydrodynamics investigation of industrial scaled-down upflow moving-bed hydrotreater reactor using a two-tip optical probe . . .	1558
Simulation of binary particle segregation for bubbling fluidized beds using polydispersed structure-based drag model extended from a monodispersed model	1447	<i>Vineet Alexander, Hamza Albazzaz and Muthanna Al-Dahhan</i>	
<i>Jibin Jia, Hongzhong Li, Zheng Zou, Wenming Liu and Qingshan Zhu</i>		Insights into granular mixing in vertical ribbon mixers	1570
Bauxite residue as an iron-based catalyst for catalytic cracking of naphthalene, a model compound for gasification tar.	1461	<i>Shahab Golshan and Bruno Blais</i>	
<i>Shiva Madadkhani, Luisa Burhenne, Xiaotao Bi, Naoko Ellis, John R. Grace and Tyler Lewis</i>		CFD-DEM simulation of wall sheeting and particles charge in fluidized beds	1582
Oxidation kinetics of 2-methyl-1,3-propanediol to methacrylic acid in a fluidized bed reactor	1475	<i>Saman Kazemi, Reza Zarghami, Navid Mostoufi and Rahmat Sotudeh-Gharebagh</i>	
<i>Mohammad Jaber Darabi Mahboub, Seyed Mahdi Jazayeri, Olga Chub, Jean-Luc Dubois and Gregory S. Patience</i>		Numerical simulation of CO ₂ adsorption in a fluidized bed using solid-supported amine sorbent	1595
A continuous-flow surface flotation cell for the separation of scanty mineral samples based on wettability contrast	1490	<i>Farnaz Esmaeili Rad, Javad Abbasian and Hamid Arastoopour</i>	
<i>Michaël Faucher, Olivier Gravel and Faïçal Larachi</i>		Gas velocity distribution in conical spouted beds with high-density particles	1607
Process analysis of a two-stage fluidized bed gasification system with and without pre-drying of high-water content coal	1498	<i>Neslin Dogan, Murat Koksal and Gorkem Kulah</i>	
<i>Ping An, Zhennan Han, Kangjun Wang, Jiguang Cheng, Jianhong Zhou, Jenny Rizkiana, Abuliti Abudula, Guoqing Guan, Dingrong Bai and Guangwen Xu</i>		Full-field PIV/DIA and local concentration measurements of ozone decomposition in riser-flow	1616
Development and validation of a novel process model for fluidized bed combustion: Application for efficient combustion of low-grade coal.	1510	<i>Alvaro E. Carlos Varas, E. A. J. F. Peters and J. A. M. Kuipers</i>	
<i>Ablay Saparov, Lyazzat Kulmukanova, Ehsan Mostafavi, Yerbol Sarbassov, Vassilis Inglezakis, Edward J. Anthony and Dhawal Shah</i>		Calibration of solids concentration optical fibre probes with solids-polymer blocks	1627
Simulation of a moving bed chemical looping system for electricity production from coal via chemical looping water splitting	1520	<i>Jaber Shabanian, Mojtaba Mokhtari and Jamal Chaouki</i>	
<i>Fanhe Kong, Darryl Tene Youmbi, Andrew Tong and Liang-Shih Fan</i>		Corrigendum/Erratum	
		Corrigendum	1639
		Erratum	1640
