

Canadian Society for Chemical Engineering
Société canadienne de génie chimique

The Canadian Journal of Chemical Engineering Lectureship Award

This award is presented to a Canadian citizen or landed immigrant who has made an outstanding contribution to chemical engineering, demonstrating exceptional promise, while working in Canada. Eligible candidates must have held their first professional appointment as an independent researcher in academia, government, or industry for seven years or less at the time of nomination submission.

Deadline

December 1 every year

Sponsor

The Canadian Journal of Chemical Engineering (Can. J. Chem. Eng.)

Award

- A framed certificate
- A short biography of the award winner will be published in *Can. J. Chem. Eng.* together with a feature paper written by the award winner summarizing their contributions in chemical engineering.
- Up to \$5,000 in travel costs will be reimbursed to the award winner for a lecture tour to three North American universities or research centres. One of the lectures should be jointly coordinated with a CIC-CSChE local section, and a university or research centre. The winner must claim the travel costs within one year of receiving the award by applying to the Editor-in-Chief of the journal.

Nomination Requirements

A nomination package must be submitted electronically through [Awards Force](#). The package should include the following:

- **Citation** (maximum 250 words) statement explaining why the nominee should receive the award. This is the key document of the nomination and should provide information about the nominee's achievements pertinent to the award.
- **Biographical Sketch** (maximum one page) providing background information of the nominee and their accomplishments. This is a summary of information obtained from a Curriculum Vitae.
- **Curriculum Vitae** (maximum nine pages).
- **Supporting Letters** (3 to 5). At least two letters must be from outside the nominee's organization.

Notes

A postdoctoral fellow, or an industrial intern is not considered an independent researcher for the purpose of the award.

The award shall be presented at the Canadian Chemical Engineering Conference.

The award winner will be required to register and present an award lecture in the conference.

Membership in the Society is not a prerequisite for this award.

Nominations that are not awarded will remain active for three years in total, commencing from the initial nomination date. The nominators are responsible for keeping the record of their nominees up to date and complete.

Selection Committee

- *Can. J. Chem. Eng.* Editor-in-Chief as non-voting Chair
- All Associate Editors of the *Can. J. Chem. Eng.* working in Canada

Notes

The award shall be presented annually unless

- the committee considers that no suitable candidate is nominated, or
- less than two nominations are received

When considering a nominee who has applied for multiple awards (or is already an award winner), the committee will evaluate the nominee based on their accomplishments that are different from those being considered (or already recognized in the last five years) by other award committees.
