## CSC Call for Nominations Descriptions

### WIDE Committee Member (2022-2025)

The Canadian Society for Chemistry (CSC) Committee Working for Inclusion Diversity and Equity (WIDE) is seeking up to 4 new members who shall be appointed mid-2022 for a term of up to 3 years. If you are interested in promoting and advocating for equity, diversity, and inclusion in its broadest sense through research and education and in working to advance diversity and equity issues in the Canadian Society for Chemistry policies, practices, and activities, we welcome your statement of interest. Activities of WIDE include (but are not limited to) reviewing relevant Society policies, procedures and practices with an equity and diversity lens, acting as a resource for the Canadian chemistry academic community by providing advice and resources on how to enhance equity, diversity and inclusion in undergraduate and graduate programs, monitoring metrics related to diversity and equity and advising the Board of Directors of the Canadian Society for Chemistry on equity and diversity issues, including policy and practice.

WIDE welcomes nominations of persons at all career stages and strives to be representative of the diverse identities of the Canadian population. The nominees for WIDE will be adjudicated by a joint sub-committee of the Nominating Committee of the CSC and WIDE and approved by the CSC Board of Directors. Members of WIDE are expected to be members of the CSC.
