

Canadian Society for Chemical Engineering | *For Our Future*
Société canadienne de génie chimique | *Pour notre avenir*

John R. Grace Award

This award is presented to a person who, as a Canadian citizen or an individual working in Canada, has made an exceptional contribution to chemical engineering, particularly in the fields of particle technology, clean energy, greenhouse gas mitigation, and novel applications that enhance quality of life.

Deadline

December 1 every year

Sponsor

Department of Chemical and Biological Engineering, The University of British Columbia; GLAB Reactor and Fluidization Technologies Inc.

Award

- A framed award certificate
- \$1,000 travel expense allowance (to partially cover the cost for registering and attending the Canadian Chemical Engineering Conference)

Nomination Requirements

A nomination package must be submitted electronically through [Awards Force](#). The package should include the following:

- **Citation** (maximum 250 words) explaining why the nominee merits the award. This is the key document of the nomination and should provide information about the nominee's achievements pertinent to the award.
- **Curriculum Vitae** (maximum nine pages).
- **Supporting Letters** (3 to 5) attesting the impact of the nominee's work. At least two letters must be from outside the nominee's organization.

Notes

The award shall be presented at the Canadian Chemical Engineering Conference in which the winner will be required to register and present an award lecture in a distinguished seminar series, hosted by the sponsor.

The recipient of the award is encouraged to [submit](#) to the Editor-in-Chief of [The Canadian Journal of Chemical Engineering](#) a manuscript based on the award lecture, having contents appropriate to the Journal's objective, for consideration of publication.

An award winner must be a member in good standing to receive an award by the CSC, CIC, or CSChE. For award nominees, CIC membership is encouraged but not required. Exceptions may be given in some award ToR.

Award nominees and nominators are ineligible to submit a nomination, if they have insights (or may be perceived to have insights) on the identity of the pool of nominated individuals. Ineligible nominees and nominators include the Directors for Awards of the three societies, and those serving on the respective award adjudication committees.

Members of the Boards of Directors of the CIC, CSC, or CSChE may nominate and support other nominees for any award, but they cannot be nominated for awards while serving on the respective board.

If the nominee has previously received awards by the CIC and/or Societies, the nominator must differentiate the current achievement from those that have been previously recognized.

The nomination shall remain in force for three consecutive years. Nominators are responsible for keeping the record of the nominee up to date and complete by following the resubmission [instructions](#) annually.

Selection Committee

- CSChE Director of Awards as non-voting Chair
- CSChE President or Vice President
- Two past winners of the award (Two sponsor-approved members for the first 2 years)

Notes

The award shall be presented annually unless the committee considers that no suitable candidate has been nominated.

When considering a nominee who has applied for multiple awards (or is already an award winner), the committee will evaluate the nominee based on their accomplishments that are different from those being considered (or have already been recognized) by other award committees.
