

2025 CSC AGM Election Voting

Why do we conduct online voting for the Board of Directors before the AGM?

- 1. Providing enhanced accessibility:** Online voting ensures that CSC Members have the opportunity to participate, even if they cannot attend the AGM in person. This allows more Members to have their voices heard in the election process.
- 2. Minimizing time constraints:** The AGM has a strict 30-minute time frame to cover the full agenda. With several Director positions up for election, conducting the vote during the AGM could be impractical and time-consuming.
- 3. Complying with governance requirements:** Our governance policies require Board members to be elected by the end of the AGM and for Members to decide who they'll be. Holding votes in person is inefficient and complicated if there are multiple candidates for a role, and online voting solves these issues.

We believe that online voting is the best solution to ensure a fair, efficient, and compliant election process. Thank you for your understanding and cooperation.
